Use Information

Crop oil concentrate is a superior blend of highly refined paraffinic oil and emulsifier-surfactant system. It is designed to for use with a broad range of pesticides including herbicides, insecticides, fungicides and/or fertilizers with micronutrients. This product increases contact activity of the spray, enhances penetration and provides uniform coverage to the leaf surface. This product contains an antifoam to suppress foam development in tank-mix combinations.

Directions for Use

Read and follow all information on the label of the pesticide, fertilizer or micronutrient with which this product is used. Always refer to the pesticide and additive label(s) for additional recommendations or precautions. Follow the most restrictive label.

To prepare agricultural sprays containing this product, fill the spray tank half full with water, add the proper amount of pesticide, fertilizer or micronutrient as directed by its label and then add this product. Maintain agitation during the entire process. Continue agitation while filling the tank with water and agitate before and during each application to ensure a uniform spray.

Note: Care should be taken when sprays containing this product are applied to new crop varieties or highly inbred crop lines not previously treated with this product. It is recommended that a small test area be treated before spraying large areas. Use care during periods when pesticides are more active, such as during periods of hot or humid conditions. Not for aquatic use.

- Move person to fresh air. If person is not breathing then give artificial respiration, preferably mouth to mouth, if possible.
- Call a poison control center or doctor for treatment advice.

IF SWALLOWED:

- Call poison control center or doctor immediately for treatment advice.
- Have person sip glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give mouth to mouth to an unconscious or convulsing person.

Storage and Disposal

Do not contaminate water, food or feed by storage and disposal.

STORAGE: Store in original container in a cool, dry place.

DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler, visit the ACRC website at www.acrcycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.
